Job Description

1. UI/UX Trainee

Job Description

We are looking for enthusiastic and motivated freshers to join our UI/UX team as UI/UX Trainees. The ideal candidate should have excellent communication skills, a learning mindset, and a strong interest in UI/UX principles, Design Thinking, and Human-Centered Design. This role offers hands-on exposure to designing

responsive and adaptive user experiences for Web, Mobile, and Tablet platforms within the IT industry.

Key Responsibilities

- Apply UI/UX principles, Design Thinking, and Human-Centered Design methodologies.
- Utilize Figma features such as Auto Layout, Components, Variables, Design Systems, and Prototyping.
- Create user flows, information architecture, wireframes, mockups, and interactive prototypes.
- Design responsive and adaptive interfaces for Web, Mobile, and Tablet platforms.
- Apply typography, color theory, spacing, layout grids, and visual hierarchy principles.
- Assist in UX research activities, including user interviews, usability testing, and competitor analysis.
- Work with Design Systems and component-based design approaches.
- Use AI-powered design tools such as Stitch, Claude, Figma AI, Lovable, v0, and similar platforms.
- Understand AI-assisted design workflows and prompt engineering fundamentals.
- Stay updated with modern product design trends and emerging technologies.
- Collaborate effectively with cross-functional teams to align business goals, user needs, and product requirements.
- Apply basic HTML and CSS knowledge to support design implementation.
- Understand interaction design, micro-interactions, and motion design principles.

Requirements

- Strong understanding of UI/UX principles, Design Thinking, and Human-Centered Design.
- Hands-on experience with Figma and modern design tools.
- Strong verbal and written communication skills.
- Basic understanding of the IT services and software development industry.

- Good interpersonal and presentation skills.
- Ability to learn quickly and work effectively in a team environment.
- Self-motivated, proactive, and eager to learn.
- Continuous learning mindset with awareness of emerging AI and design technologies.

2. Business Analyst (BA) Trainee

Job Description

We are seeking enthusiastic and detail-oriented freshers to join our team as Business Analyst (BA) Trainees. The ideal candidate should possess strong analytical thinking, excellent communication skills, and a keen interest in understanding business processes and translating client requirements into actionable solutions.

This role offers hands-on exposure to requirement gathering, business analysis, documentation, stakeholder communication, and Agile project environments within the IT industry.

Key Responsibilities

- Assist in gathering, analyzing, and documenting business requirements.
- Coordinate with clients, developers, testers, and project teams to ensure clear understanding of requirements.
- Prepare functional documents such as Business Requirement Documents (BRD), Functional Requirement Documents (FRD), user stories, workflows, and use cases.
- Participate in client meetings, requirement discussions, and project planning sessions.
- Conduct market research and competitor analysis to support business and project objectives.
- Create process flow diagrams, wireframes, presentations, and other supporting documentation.
- Support sprint planning, task tracking, and project coordination activities.
- Maintain project documentation and ensure timely updates.
- Assist in testing and validating developed features against documented requirements.

Requirements

- Strong analytical and problem-solving skills.
- Good verbal and written communication skills.
- Basic understanding of SDLC, Agile methodologies, and software development processes.
- Familiarity with MS Office, Google Workspace, or project management tools is an advantage.
- Ability to multitask and collaborate effectively in a team environment.
- Strong attention to detail and willingness to learn.
- Self-motivated and proactive attitude.

3. Business Development (BD) Trainee

Job Description

We are looking for enthusiastic and motivated freshers to join our Business Development team as BD Trainees. The ideal candidate should possess excellent communication skills, a learning mindset, and a strong interest in IT sales, client engagement, and business growth initiatives.

This role provides hands-on exposure to lead generation, client communication, market research, and sales processes within the IT industry.

Key Responsibilities

- Identify potential clients through LinkedIn, online portals, Upwork, Freelancer, and other relevant platforms.
- Generate and qualify leads for IT services and software solutions.
- Assist in preparing proposals, presentations, and client communications.
- Conduct market research to identify business opportunities and industry trends.
- Maintain and update CRM systems and databases with lead and client information.
- Coordinate with internal teams for requirement gathering and solution discussions.
- Participate in client meetings, follow-ups, and sales activities.
- Support the Business Development team in achieving sales targets and business objectives.
- Attend in-person client meetings locally whenever required.

Requirements

- Understanding of the B2B IT/SaaS sales environment.
- Strong verbal and written communication skills.
- Basic understanding of the IT services and software development industry.
- Good interpersonal and presentation skills.
- Ability to learn quickly and work effectively in a team environment.
- Familiarity with MS Office, Google Workspace, or CRM tools is an advantage.
- Self-motivated, target-oriented, and results-driven attitude.
