Flexio (Redgenie Technologies Pvt. Ltd.) **Type of Company**
India Level **Campus Date & Time**
Will Be Declared Soon **Last Registration Date**
03 Jul, 2026 - Friday**Venue**
Will be dcelared soon**> Job Description** **Job Profile**
1. AI Data Associate **Package (CTC)**
3.25 LPA **Work Location**
Ahmedabad, Mohali, Durgapur, Bhubaneswar**Job Description****Job Overview**

- Interns will work on real-world AI/ML data tasks, including validating, reviewing, and quality-checking annotated datasets, contributing directly to production-grade language and vision AI models.

Roles and Responsibilities

- Annotate datasets by applying appropriate labels (e.g., sentiment tags for text, bounding boxes for images, and transcriptions for audio).

- Carefully interpret project specifications and consistently refer to annotation guidelines when needed.
- Complete assigned batches within productivity targets while maintaining high accuracy.
- Perform quality checks and revise annotations based on reviewer feedback.
- Flag ambiguous or unclear data for supervisor review and resolution.
- Participate in calibration sessions to ensure consistent annotation standards across teams.
- Assist in organizing datasets for training, validation, and testing purposes.
- Provide feedback to improve annotation workflows, processes, and guidelines.
- Stay up to date with evolving AI/ML annotation practices, tools, and quality standards.

Eligibility Criteria

- Proficiency in the local regional language of the city of application, both spoken and written.
- Must possess a personal laptop that meets the minimum system requirements.
- Availability to commit full-time for the entire 3-month internship during the assigned shift.
- Strong attention to detail, consistency, and a willingness to learn.

Programme Perks

- Hands-on experience working on live AI/ML data pipelines.
- Comprehensive training and onboarding by experienced data operations teams.
- Certificate of Internship upon successful completion of the program.
- Pre-Placement Offer (PPO) opportunities for top-performing interns.
- Exposure to industry-standard annotation workflows used in large-scale language and vision AI models.

Skills Required

→As per mentioned at above job descriptions

Selection Process

1. Initial Resume Screening Round
