Job Description

Associate Security Analyst

Job Summary

The Associate Security Analyst will be responsible for managing and supporting multiple security technologies, including Firewalls, Next-Generation Firewalls (NGFW), SIEM, SOAR, EPP, and EDR solutions for global customers.

The analyst will be part of the Global Security Operations Center (SOC) and will serve as a primary point of contact for SharkStriker's IT Security Partners and

their customers. The role involves configuring and maintaining security technologies, analyzing security incidents, escalating critical issues, and assisting with remediation efforts.

Responsibilities

- Manage SIEM, SOAR, and EDR platforms, including security operations, maintenance, monitoring, and configuration.
- Perform Vulnerability Assessment and Penetration Testing (VAPT) across various types of assets.
- Manage Security Operations Center (SOC) support ticket queues for security incident response and change requests.
- Perform routine support activities, including EDR agent installation, upgrades, and security patch deployment.
- Work closely with partners and customers to evaluate and investigate detected security events and determine whether they constitute significant security incidents requiring response.
- Coordinate with customers and internal/external security teams as required.
- Provide 24x7 operational support on a rotational shift basis.

Required Skills

- Strong willingness and ability to learn, understand, and adapt to new technologies.
- Basic understanding of cybersecurity principles and best practices.
- Familiarity with network protocols, firewalls, and intrusion detection/prevention systems (IDS/IPS).
- Basic knowledge of IT security protocols, common and emerging cyber threats, security monitoring tools, EDR and firewall technologies, and VAPT concepts.
- Willingness to develop in-depth knowledge of network and host security technologies and products, including Firewalls, Network IDS, SIEM, SOAR, EPP, and EDR solutions, with a commitment to continuous learning.
- Knowledge of SIEM tools and log analysis platforms (e.g., Splunk, ELK Stack) will be an added advantage.
- Understanding of TCP/IP protocols, security architecture, and remote access security technologies is desirable.
- Awareness of current information security threats, vulnerabilities, and compliance requirements.

- Willingness to participate in customer calls, demonstrations, and other customer-facing activities.
- Self-motivated individual with the ability to multitask and perform effectively in a high-performance team environment.
- Strong task management, tracking, and reporting skills.
- Excellent written and verbal communication skills in English.
- Strong analytical, problem-solving, and troubleshooting abilities.
- Ability to work independently and proactively with minimal supervision.

Work Timings: Candidates will be part of a dedicated or shared Security Operations Center (SOC) and will work in a 24x7 rotational shift environment. Shift timings are tentative and may vary based on business requirements.

Shift Schedule

- **Morning Shift:** 6:00 AM – 3:00 PM
- **Afternoon Shift:** 12:00 PM – 9:00 PM or 2:00 PM – 11:00 PM
- **Night Shift:** 9:00 PM – 6:00 AM or 10:00 PM – 7:00 AM

2. Business Development Intern

Job Summary

The Business Development Intern will support the Sales and Business Development team in lead generation, market research, client outreach, and business growth initiatives. This role provides hands-on exposure to B2B sales processes, client communication, CRM management, and strategic business development activities within the cybersecurity industry.

Responsibilities

- Identify and research prospective clients through LinkedIn, online platforms, databases, and market research.
- Generate and qualify leads through outbound outreach activities.
- Assist in scheduling meetings, product demonstrations, and sales discussions.
- Maintain and update lead information in CRM systems and sales trackers.
- Support the preparation of proposals, presentations, and sales documentation.

- Conduct market research and competitor analysis.
- Assist in creating and maintaining client databases and prospect lists.
- Coordinate with internal teams for follow-ups and business opportunities.
- Support email campaigns, LinkedIn outreach, and lead nurturing activities.
- Track sales activities and prepare periodic reports.
- Participate in customer interactions to understand business requirements.
- Assist in developing strategies to expand business opportunities and strengthen market presence.

Skills Required

- Excellent verbal and written communication skills.
- Strong interpersonal and relationship-building abilities.
- Confidence in interacting with prospective clients.
- Basic understanding of sales and business development concepts.
- Proficiency in Microsoft Office applications (Excel, Word, and PowerPoint).
- Strong research and analytical skills.
- Ability to maintain accurate records and documentation.
- Self-motivated with a proactive approach to learning and professional development.
- Good organizational and time-management skills.
- Familiarity with LinkedIn, CRM tools, and professional email communication will be an added advantage.

Work Timings

- Monday to Friday
- 10:00 AM to 7:00 PM
- Work from Office (Ahmedabad)

Internship Benefits

- Internship + Job Opportunity
- Internship Stipend:

- 15,000 per month for Bachelor's degree candidates
