Package (CTC)

3.6 to 4.2 LPA

Work Location

Ahmedabad

Job Description

1) UI/UX & Visual Graphic Designer

- Design social media creatives, banners, and marketing materials aligned with brand guidelines.
- Create wireframes, mockups, and UI designs for web and mobile applications.

- Collaborate with marketing and development teams to understand requirements and deliver designs.
- Ensure consistency in visual design and user experience across all platforms
- Assist in basic video editing / reels for social media (optional but preferred)
- Improve user experience by focusing on usability, accessibility, and clean UI layouts
- Stay updated with latest design trends, UI/UX practices, and tools
- Someone who can design visually appealing creatives + think from a user experience perspective is added advantage
- Ability to balance marketing design and product UI/UX work
- Willingness to learn, adapt, and grow in both design and usability domains
- Basic knowledge of design tools like Figma, Photoshop, Illustrator, Canva
- Understanding of design principles (color, typography, layout, spacing)
- Basic understanding of UI/UX concepts like wireframes, user flows, and usability
- Creative mindset with attention to detail and eagerness to learn

2) Business Development Executive

- Identify and pursue new business leads and sales opportunities
- Conduct client meetings, demos, and follow-ups
- Build and maintain strong client relationships
- Coordinate with internal teams to align service offerings
- Represent the company professionally in client interactions

3) Content Writer & Digital Marketing Executive

- Basic knowledge of SEO, social media trends, and digital marketing tools
- Familiarity with MS Office, Canva, or similar design tools (preferred)
- Write and edit high-quality content for blogs, website pages, case studies, and newsletters.
- Create clear, engaging, and conversion-focused content that aligns with the company's goals.
- Develop SEO-friendly articles by incorporating relevant keywords and following best practices.
- Maintain consistency in brand voice, tone, and messaging across all content platforms.
- Research industry trends and simplify complex SaaS and IT topics into easy-to-understand content.
- Repurpose content into formats like blogs, LinkedIn posts, and newsletters.
- Manage social media by creating and posting content.
- Assist in planning and executing content calendars to ensure timely content delivery.
- Monitor engagement and basic performance metrics to improve content effectiveness.

Skills Required

- Strong written and verbal communication skills
- Excellent interpersonal and presentation skills
- Self-motivated and organized with a goal-oriented mindset
- Familiarity with MS Office and CRM tools (preferred)

About Company

Founded in 2017, TechEniac is a custom software development company focused on building reliable, scalable, and user-friendly web and mobile applications. Their team specializes in modern technologies like React, Node.js, Next.js, and AI integrations to deliver practical solutions for startups and established businesses alike.

They work on everything from SaaS platforms and enterprise tools to AI integrations. Their strength lies in understanding what clients need — and building smart, scalable solutions that move the needle for their business.

At TechEniac, they value a balanced work culture. They believe in clear communication, clean code, and constant improvement. Their team enjoys regular knowledge-sharing sessions, open discussions, and occasional team outings to keep things fresh. They're a growing team that enjoys solving real-world problems — together.

If you're someone who enjoys working in a collaborative environment where learning never stops and ideas turn into real-world impact, TechEniac might be a good fit for you.
