> Job Description

 **Job Profile**
1. Software Developer Intern (Full Stack)
2. Technology Sales Intern **Package (CTC)**
2.5 to 3.0 LPA **Work Location**
Ahmedabad

Job Description

1. Software Developer Intern (Full Stack).

Job Summary

We are looking for a motivated **Software Developer Intern (Full Stack)** who is interested in both frontend and backend development. As an intern, you will collaborate with our design and development teams to build responsive, user-friendly web applications. This role offers a unique opportunity to gain hands-on experience with modern web development platforms while working alongside experienced professionals.

Key Responsibilities

- Develop and customize websites, web applications, and business solutions using **Wix, Wix Studio, Velo, Webflow, Bubble, Framer**, and other modern development platforms.
- Build custom features using **Velo by Wix**, including APIs, database collections, backend modules, automations, webhooks, and third-party integrations.
- Assist in developing responsive user interfaces using **HTML, CSS, JavaScript**, and modern web development practices.
- Integrate external services, APIs, payment gateways, CRM systems, and automation tools.
- Support backend development using **Node.js**, REST APIs, authentication systems, and database integrations.
- Troubleshoot, debug, test, and optimize websites and applications for performance, reliability, and user experience.
- Collaborate with designers, developers, and project managers to deliver high-quality solutions.
- Participate in project discussions, code reviews, technical research, and solution planning.
- Communicate effectively with clients and team members to understand requirements and provide technical support.
- Continuously learn new technologies, tools, and industry best practices while contributing to real-world projects.

Qualifications & Requirements

- Basic knowledge of **HTML, CSS, and JavaScript**.
- Familiarity with website development platforms such as **Wix, Webflow, Bubble, WordPress, Shopify**, or similar tools is an advantage but not mandatory.
- Basic understanding of **Git** and version control workflows.
- Knowledge of APIs, webhooks, and third-party integrations is a plus.
- Strong analytical and problem-solving skills with attention to detail.
- Good communication and teamwork skills.
- Self-motivated, proactive, and eager to learn new technologies.

- Passion for web development, automation, and building real-world digital solutions.
-

2. Technology Sales Intern

Job Summary

We are looking for a motivated **Technology Sales Intern** who is passionate about sales and business development in the IT services industry. This internship provides hands-on experience in lead generation, client communication, and IT service sales while working with experienced sales professionals.

Key Responsibilities

- Research and identify potential clients and business opportunities.
- Support the sales team with lead generation, follow-ups, lead tracking, and client communication.
- Learn the sales process and assist in converting leads into paying clients.
- Contribute to business growth through effective client engagement.
- Assist with basic marketing, outreach, and promotional activities as required.

Who We're Looking For

- Final-year students or recent graduates who are serious about building a career in **IT services sales and marketing**.
- Individuals who are committed to a career in sales and motivated to achieve results.
- Energetic, self-motivated, confident, and quick learners with strong communication skills.
- Candidates who enjoy interacting with people and are driven by performance and growth.

What You'll Gain

- Hands-on experience in IT services sales and business development.
- Mentorship from experienced sales professionals.
- Exposure to diverse IT projects, including web development and digital products.
- Opportunity to grow in a fast-paced, results-driven work environment.

- Exposure to modern web development, AI tools, automation, and no-code/low-code platforms.
- Hands-on experience with Wix Studio, Velo, Node.js, API integrations, AI-assisted development tools, and real-world client projects.

Important Policy

- Compliance with company policies is mandatory.
- Any breach of company policies, including office conduct or workplace rules, may result in termination of the internship.
- Mobile phone usage during working hours is strictly prohibited unless specifically authorized for work purposes.

Service Agreement: 1 Year after completing internship, Original Marksheets will be taken for agreement purpose only

About Company

iView Labs Pvt. Ltd. is a full-stack software product development company founded in 2012 in Ahmedabad, Gujarat, India. The company partners with businesses across the Healthcare, Education, and FinTech sectors to build innovative digital products and scalable technology solutions. At iView Labs, people and culture are the company's greatest strengths. They help organizations build high-performing technology teams, transform ideas into successful products, and support the entire product journey—from concept (0 to 1) to market launch and growth. They also enable businesses to innovate by creating new digital products, services, and business models. iView Labs is a trusted technology partner for startups and enterprises, offering end-to-end software product development, on-demand developers, dedicated tech teams, and software innovation services.
