Job Description

General Job Role at Meditab

As a part of Meditab, candidates will work in a dynamic and collaborative environment focused on innovation, learning, and professional growth. Depending on the assigned profile, responsibilities may include software development, quality assurance, data engineering, digital marketing, content creation, business development, design, or technical documentation.

Candidates are expected to:

- Demonstrate strong problem-solving and analytical skills.
- Collaborate effectively with team members and stakeholders.
- Learn and adapt to new technologies, tools, and business processes.
- Maintain professionalism, accountability, and a high standard of work quality.
- Participate in training sessions and continuous learning initiatives.
- Contribute to project delivery while adhering to organizational policies and timelines.

The specific roles, responsibilities, required skills, and eligibility criteria for each profile are detailed in the attached Job Description (JD) document.

 [About Company](#)

At Meditab, they design innovative healthcare IT solutions that simplify how clinics, pharmacies, and providers work—making care more efficient, connected, and patient-centric. From telemedicine platforms to specialty EMRs and pharmacy automation tools, they build the systems that keep healthcare moving. With over two decades of experience and a global presence including a major development hub in Ahmedabad—they blend deep domain expertise with agile innovation. Whether it's optimizing patient workflows, ensuring regulatory compliance, or enabling seamless virtual care, Meditab is redefining what technology can do for healthcare. Meditab is a group of companies founded in the year of 1998. Meditab consists of 9 sister concerns that work with US Healthcare IT by providing the best services and products. Meditab is a multinational corporation headquartered in California with operations in Texas, Sacramento, San Jose, Puerto Rico, Argentina, the Philippines, and Ahmedabad. Empowering our clients with cutting edge technology to meet future healthcare needs today. Company mission is simple to create the most advanced, intuitive technology solutions that enable healthcare providers to practice better medicine.
