- 2) Business Development Executive - 3 LPA

Work Location

Rajkot

Job Description

1) Project Coordinator

The Project Coordinator will play a key role in supporting the delivery of software development projects. The Project Coordinator will work closely with project managers, developers, and clients to ensure projects run smoothly, are well-documented, and stay on schedule.

Key Responsibilities:

- Assist project managers in planning, execution, and delivery of IT projects.
- Coordinate between internal teams and clients for project updates.
- Maintain project documentation and timelines.
- Monitor progress and flag delays or issues proactively.
- Schedule meetings and prepare MOMs (Minutes of Meetings).
- Communicate effectively to ensure clarity on deliverables and expectations.
- Coordinate with developers, designers & clients.
- Track project timelines, deliverables & progress.
- Ensure quality standards are followed throughout the project lifecycle.
- Create and manage task assignments using project management tools.
- Help with resource planning and team allocation based on project requirements.
- Follow up on task deadlines with team members and escalate when needed.
- Collect client feedback and ensure it is properly documented and addressed.
- Support in generating project status reports and performance metrics.
- Act as a bridge between technical and non-technical teams.
- Participate in brainstorming sessions and assist in requirement gathering.
- Help streamline and improve internal processes for better efficiency.
- Assist in onboarding new clients and introducing them to the project workflow.
- Maintain confidentiality and handle sensitive project data responsibly.
- Knowledge of the Software Development Life Cycle (SDLC).
- Familiarity with project management tools such as Trello, Jira, ClickUp, or Asana.
- Proficiency in MS Office (Excel, Word, PowerPoint).
- Ability to understand technical documentation.
- Knowledge of IT services and web applications.

2) Business Development Executive

As a Business Development Executive, you will be the driving force behind client acquisition and relationship building. You will identify new business opportunities, pitch services, and collaborate with technical teams to convert leads into long-term partnerships.

Key Responsibilities:

- Identify and pursue new business opportunities in domestic and international markets.
- Communicate effectively with potential clients to understand their requirements.
- Collaborate with the technical team to prepare proposals, estimates, and project.
- Conduct market research to stay informed about industry trends and competitor strategies.
- Schedule and conduct client meetings, demos, and presentations.
- Follow up on leads, negotiate contracts, and close deals.
- Maintain CRM data and prepare weekly/monthly reports on business development activities.
- Foster long-term client relationships through effective communication and service.
- Familiarity with sales and CRM tools.

Skills Required

- Strong understanding of IT services, web, and software solutions.
- Excellent communication and interpersonal skills (verbal & written).

- Ability to present ideas with clarity and confidence.
- Self-motivated, target-oriented, and result-driven.
- Eagerness to learn and grow in a dynamic IT environment.

Selection Process

1. Aptitude Test 2. Technical Interview 3. HR Round
